SUMMARY

I am an aspiring AI Engineer who loves building AI-powered products that solve real-world problems. I believe technology should create real value by making people's work easier and more efficient. I enjoy turning ideas into practical solutions using my skills and intuition. I am always eager to learn from people with more experience and continuously improve myself as an engineer.

PROJECTS

DOCUMIND AI

DOCUMIND AI is an AI-powered document intelligence platform that helps organizations work with large and complex documents more efficiently. Instead of manually searching through hundreds of pages, users can simply ask questions in natural language and get accurate, context-aware answers from their documents.

Online-Certificate-verification-project

I built an Online-Certificate-Verification project as my final year BCA project and deployed it on Render and the technology I used in this project are - JavaScript, node.js, express.js, MongoDB,. This was the first time where I worked on things related JWT and Authentications.

EDUCATION

Bachelors of Computer Applications, Computer Applications

Nov 2022 - May 2026

Manipal University Jaipur

GPA: 7.8

Senior Secondary Education(Class XII), Commerce

Apr 2020 - Apr 2021

Sanjay Public Sr. Sec. School

Percentage: 96%

Secondary Education(Class X),

Apr 2018 - Apr 2019

Sanjay Public Sr. Sec. School (RBSE)

Percentage: 88%

SKILLS

AI engineering & backend knowledge: RAG, Document Intelligence Engine, FastAPI, chunking, PDF parsing, orchestration, Retrieval , Chroma DB, semantic search, Postgres(basics), Python , JavaScript, node.js, Express.js

Fundamentals: Solved around 40 DSA leet code questions, DBMS, OOPs concepts **Tools:** Postman, VScode, Github, Render
